ABSTRACT

The Wisconsin Vocational, Technical, and Adult Education (VTAE) System annually conducts a student follow-up survey to gather data on the activities and perceptions of graduates of Designed to provide information for career awareness and program planning efforts, the survey investigates the current activities of VTAE graduates and the relationship between those activities and their educational programs. Between October and December 1988, the 16 districts in the VTAE system surveyed a total of 13,776 graduates. Study findings, based on an 88% response rate, included the following: (1) 57% of the respondents were female, 42% were between 20 and 24 years of age, and 92.3% were white; (2) 77% indicated that they were satisfied or very satisfied with their training, 4% indicated that they were dissatisfied, and 19% did not respond; (3) 93% were employed, and, of these, 86% were working in jobs directly or somewhat related to their field of training; (4) 90% were working in Wisconsin, and 8% were employed out of state; (5) business programs had the highest number of graduates (N=2,132), but ranked fifth in terms of the percent of graduates employed in a field related to their training; (6) agribusiness, home economics, and technical programs had the highest percentages of employed graduates working in a related field; and (7) the median monthly salary for all VTAE graduates was $1,204, compared to the median monthly salary for all Wisconsin industries and occupations of $1,282. OVERVIEW

Introduction

The Student Follow-Up Survey is conducted annually to gather data regarding the activities and perceptions of students after graduation from the Wisconsin Vocational, Technical and Adult Education system.

The primary objectives of the survey are to identify the current activities of graduates of VTAE programs, to determine the extent to which current activities are related to the students' educational programs, to provide information to be used as tools in career awareness and planning efforts for those making or assisting in career decisions, and to provide data to facilitate program planning, evaluation and development.

Methodology

The 16 districts in the Wisconsin VTAE System surveyed graduates of programs in their respective districts. The survey was conducted between October and December, 1988. A total of **13,776 graduates** were surveyed statewide with **12,141 responding**, resulting in a **response rate of 88 percent**. These responses were submitted to the Wisconsin Board of Vocational, Technical and Adult Education for compilation of this statewide report. A copy of the survey instrument is included as Appendix A. Basic concepts and measures used throughout the report are defined below.

The **labor force** includes all employed and unemployed individuals but does not include those outside the labor force. A person is considered **employed** if he or she worked for pay or profit at the time of the survey. Individuals in any of these groups may be employed full-time or part-time. Full-time employment is defined as 35 or more hours per week; part-time employment is less than 35 hours per week. A person is considered unemployed if he or she performed no work for pay or profit at the time of the survey but was looking for work.

Survey respondents who are employed classify their jobs as directly related, somewhat related, or not related to the training received. In the employment data tables which follow, respondents who indicate their job is directly or somewhat related are counted in the **employed related** catgegory. Thus, the employed related category is a subset of the employed category.

Monthly salary figures are reported for respondents who report being employed full-time in jobs related to their training. The salary range is based on the lowest and the highest reported figures. The **median salary** is the mid-point of salaries reported with half of the salaries below the mid-point and half above.

DEMOGRAPHIC COMPOSITION OF RESPONDENTS (1987-88 GRADUATES)

SEX

The male/female proportion of the respondents differs by 14 percent. There are 1,631 more females than males.

	Number	Percent
Females	6,883	57%
Males	5,252	43%
Not Reported	6	< 1%
TOTAL	12,141	100%

AGE GROUPS

The largest number of graduates who responded (5,117) is in the 20-24 year age group, which represents 42 percent of the total.

	Number	Percent
16-19 Years	585	5%
20-24 Years	5,117	42%
25-29 Years	2,223	18%
30-34 Years	1,601	13%
35-44 Years	1,824	15%
45-54 Years	573	5%
55-64 Years	121	1%
65 +	13	< 1%
Not Reported	84	1%
TOTAL	12,141	100%

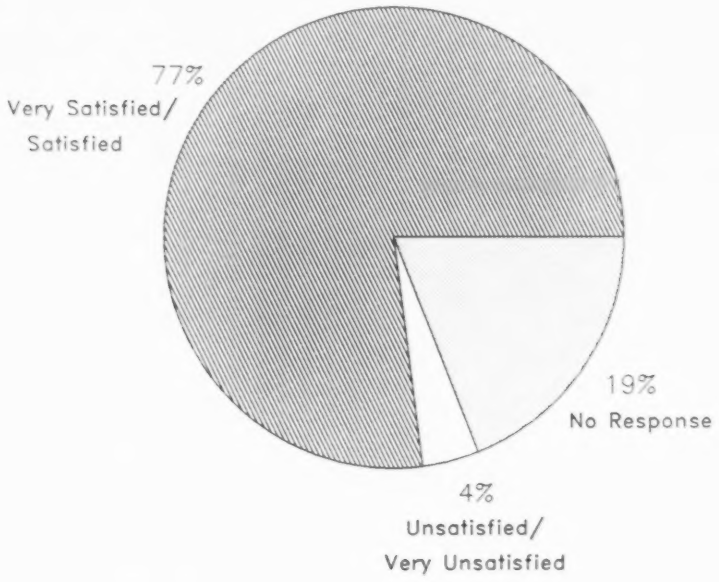
ETHNIC DESIGNATION

Of the graduates who responded, 5.3 percent are minorities, and 2.4 percent did not report their ethnicity.

	Number	Percent
Native American	82	0.7%
Asian American	157	1.3%
Black	311	2.5%
Hispanic	98	0.8%
White	11,202	92.3%
Not Reported	291	2.4%
TOTAL	12,141	100%

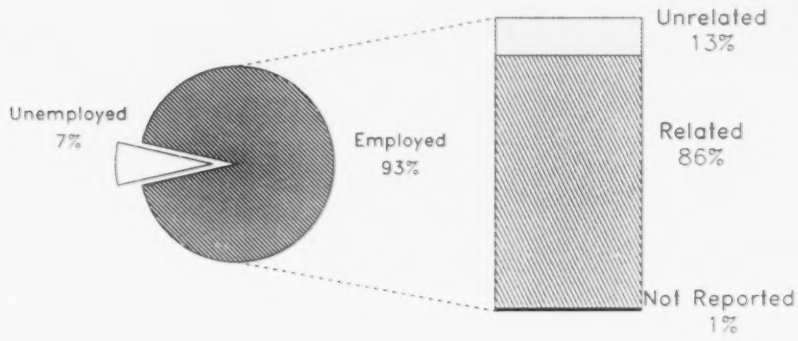
SATISFACTION WITH TRAINING

Graduates rated the training they received. Of the graduates responding, 77 percent indicated that they were satisfied or very satisfied with their training, and 4 percent stated that they were unsatisfied or very unsatisfied. As shown in the chart below, 19 percent did not respond to this question.



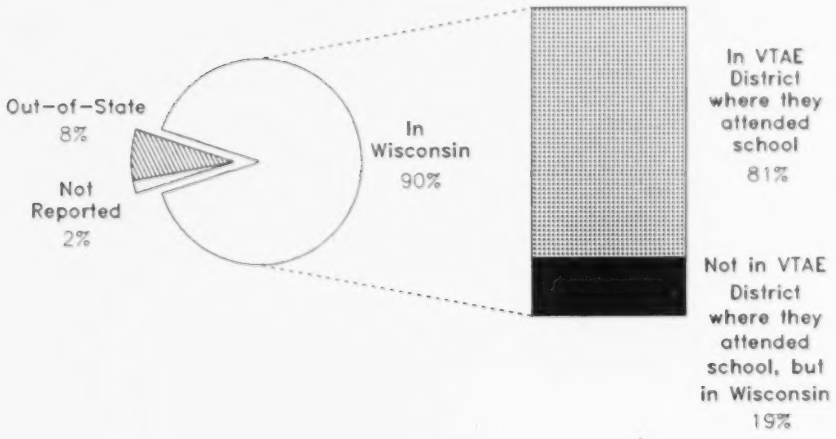
EMPLOYMENT STATUS

The chart below shows the employment status of the graduates who responded to the survey. Of the respondents who are in the labor force, 93 percent are employed and 7 percent are unemployed. Within the group who are employed, 86 percent indicated that their jobs are either directly related or somewhat related to the training received, 13 percent reported that their jobs are not related, and 1 percent did not respond to the question.



EMPLOYMENT LOCATION

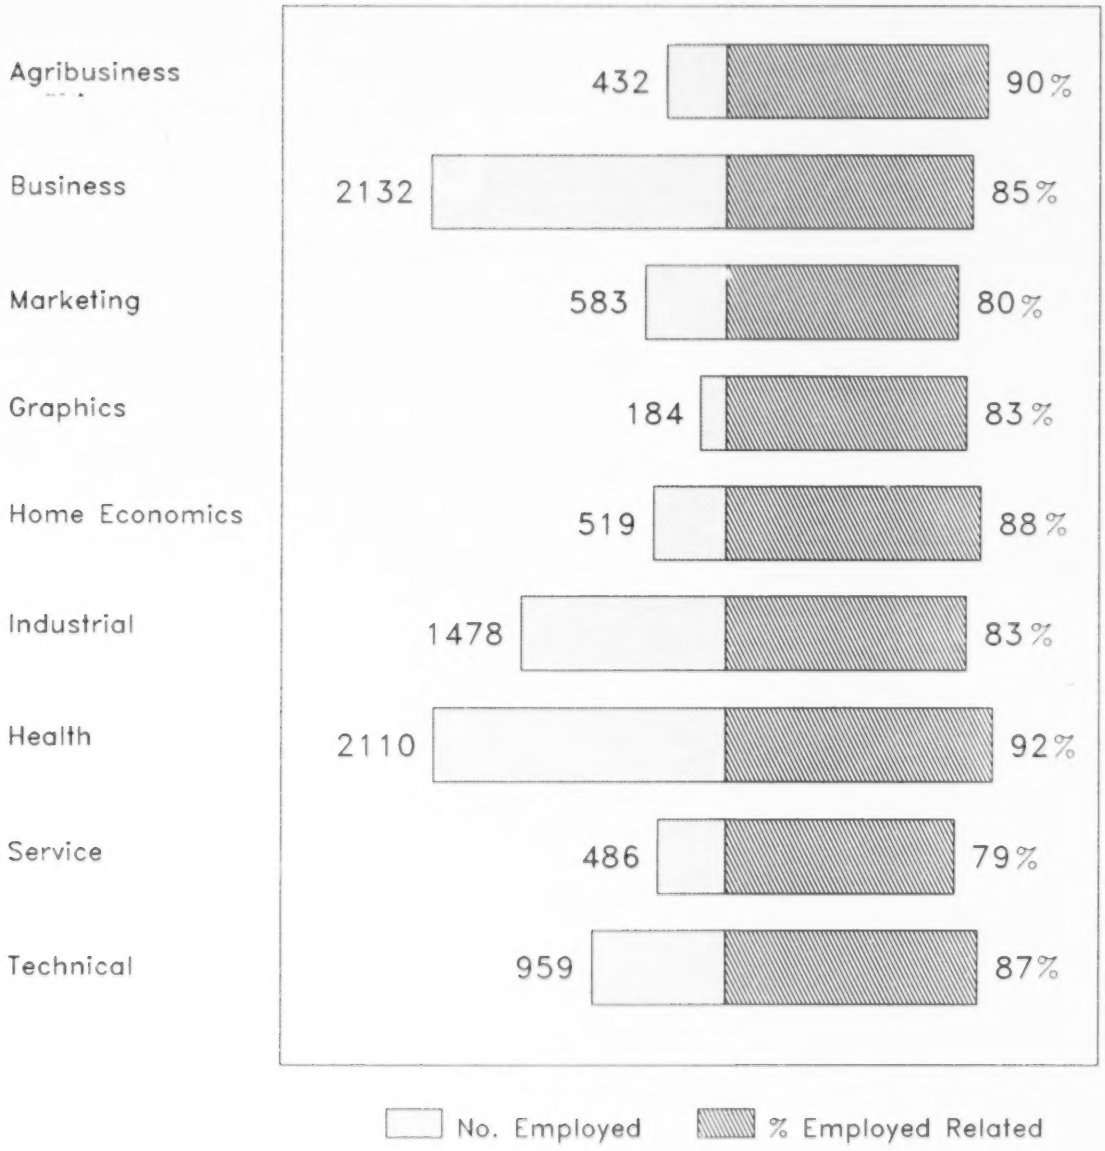
As indicated in the chart below, 90 percent of the graduates who responded to the survey are employed in Wisconsin, 8 percent are employed out-of-state, and 2 percent did not indicate where they are employed. Of those employed in Wisconsin, 81 percent are employed in the VTAE district where they received their training, and 19 percent are employed outside of the district.



EMPLOYMENT RELATED TO TRAINING BY INSTRUCTIONAL DIVISION

As shown in the chart on the following page, the majority of graduates who responded to the survey obtained employment in occupations related to their training. Business programs had the highest number of graduates (2132) and ranked fifth in terms of the percent employed related (85 percent). Health program graduates ranked first in terms of the percent employed related (92 percent), and had the second highest number of graduates of all instructional divisions (2110). Graphics programs had the lowest number of graduates (184), but 83 percent were able to obtain employment related to their training. Technical program graduates numbered 959, with 87 percent employed related. 83 percent of the 1478 industrial program graduates secured employment related to their training. Of the 432 graduates from agribusiness programs, 90 percent were employed in a related occupation. 88 percent of home economics program graduates were employed related. Of all the instructional divisions, the marketing and service divisions had the lowest percentage of graduates who obtained jobs related to their training, 80 percent and 79 percent, respectively.

EMPLOYMENT RELATED TO TRAINING BY INSTRUCTIONAL DIVISION



MEDIAN MONTHLY SALARIES FOR INSTRUCTIONAL DIVISIONS

The chart below shows median monthly salaries in each instructional division. The median salary reflects the mid-point of all salaries reported for each instructional division. Salary figures are based only on those who report being employed full-time in jobs related to their training. The median monthly salary for all VTAE graduates is $1204. By comparison, the median monthly salary for all Wisconsin industries and occupations is $1282 (1988 Wisconsin Wage Survey, Department of Industry, Labor and Human Relations).
